## Acoustics Values

Test	Value	Conform
Absorption	Class A   $\alpha_w$ 1.00	NEN - EN - ISO 11654

**Applications** | Walls, ceilings, panels, upholstery and lighting

## Processing Féline fabrics

Féline advises to use experienced installers with knowledge on how to process and handle the fabric for your application. Please note that processing or applying the fabric means that you have accepted the order. Féline will not be able to take any returns or give refunds for fabrics after they have been cut, processed or applied.

Please always pay attention to the face side of the fabric. The face side of our fabrics is always the inner side of the roll.

In case you have any doubts before applying your fabric, than feel free to contact us.

## Treatments Féline offers

Féline can support you in the processing of the fabric to suit your application. Upon request our fabrics are available with multiple backings, such a self-adhesive and paper backing.

With our in-house production facilities we can support you in a wide range of applications for your fabrics. Please ask and see what Féline can do for you.

## Maintenance
